Yale Degree Audit

Yale Degree Audit is a web-based tool that calculates and displays how an individual student's courses may count toward the requirements for the bachelor's degree. The degree audit enables students to monitor their own progress toward the completion of degree requirements. It also helps students, and their advisers discuss course selection for current and future terms more meaningfully by clarifying what requirements the student still needs to complete. Currently, major requirements are not included in the audit. YDA is located on the Academics tab of Student Information System (SIS).

Unlike a transcript, your degree audit is an unofficial document provided for your information and convenience. The audit serves as a tool to provide you with helpful and timely information when you are planning your course schedule, discussing your schedule with your adviser, and reviewing your progress toward completing the requirements for the bachelor's degree. Your degree audit is **not** an official academic transcript. Currently, major requirements are not included in the audit.

Yale Degree Audit will help you:

- Determine what requirements you need to fulfill in order to complete your bachelor's degree
- View a list of all courses in which you have enrolled and the distributional designations each course carries
- View individual course grades and cumulative grade-point average (GPA)
- View transfer credits, waivers, and exemptions for which you have been approved

APPLY TO GRAND STRATEGY

Year-long seminar in social activism, politics, foreign policy, and public service

Course dates: January 2023 – December 2023

[The Brady-Johnson Program in Grand Strategy](#) is now accepting applications for its year-long seminar focused on politics, social activism, diplomacy, and public service. The course is open to all current Yale College juniors and all graduate and professional students.

Beginning in January, the two-semester course explores how to achieve large ends with limited means, whether in social movements, military conflict, foreign policy, or domestic politics. The course engages questions of grand strategy from a wide range of perspectives, exploring topics in racial justice, global security, economic development, climate change, immigration, and technological advancement, among others. It emphasizes interaction between academics and practitioners, and between participants of differing political views. Grand Strategy aims to develop students' capacities not only to analyze the past and present, but to act as responsible, thoughtful leaders and citizens of the future. In conjunction with the course, the program hosts a number of events and private dinners with practitioners such as social activists, diplomats, politicians, military personnel, journalists, and media experts. This course is a highly selective and intensive seminar that offers summer research grants to all accepted students.

In 2023 the program will be led by interim Director Professor Michael Brenes, supported by a group of senior Yale faculty, most of whom have taught in the program before, including:

Professor Edyta Bojanowska <https://slavic.yale.edu/people/edyta-bojanowska>
